Q61R	Mayday! Mayday! (Behavioral & Mental Health Funding can be used for this class)	Gina Essex	This course aims to: -Build awareness through de-stigmatizing the cause and effect of traumatic stress. The material presented is based on the premise of recognizing that it's not a matter of 'if...it's a matter of 'when' a person experiences the effects of traumatic stress. -Build resiliency by learning how to navigate self-regulation through experiential techniques within the self and with another. -Create a common dialogue of experience for peers in order to gain and offer effective support that proactively addresses and attends to the inevitable distress most humans will experience as a first responder. This course is an investment into: -Instilling a sense of hope for 'healing from the effects of traumatic stress' versus a culture of 'dealing with the effects of traumatic stress in isolation'. -The longevity, wellbeing, healing and quality of life of every participant, their families and their colleagues.
